DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 21, 2005 has been entered.

Allowable Subject Matter

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant's amendments, and corresponding arguments, filed January 21, 2005 have been found convincing in overcoming the prior art. Specifically, applicant has amended the claims such that they require the limitation of the patching resin having a voltage endurance of at least 1000 hours at 188 volt/mil (7.5 kv/mm). Applicant argues that adding a reactive diluent to filled resins, such as those in the primary reference, would act to decrease the dielectric strength of the resin, thus the combination of references used to reject the claims of the previous Office Action would not have been obvious. In view of the amendments that now require a specific voltage endurance, and the affidavits filed January 21, 2005 and September 21, 2004, this has been found convincing. The

examiner has withdrawn the rejections of the previous Office Action accordingly. An updated search has failed to teach, or make obvious, the limitations of adding a reactive diluent to a patching resin comprising metal intercalated AlSiO nano structures such that the resin retains the claimed voltage endurance and has a viscosity within the claimed range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric B Fuller whose telephone number is (571) 272-1420. The examiner can normally be reached on Mondays through Thursdays.
